

IREDCO as a joint stock company was established in 1999 by a number of well known professional engineers of different engineering disciplines. It also represents a number of consulting and construction companies.

IREDCO's mission is to provide an integrated engineering and managerial services in the world-class standards. This is in line with the adopting of privatization policy in the country.

Having achieved a reliable reputation during recent years by undertaking several large-scale projects focusing on meeting customers' needs and continuous improvement, IREDCO now is able to set ever more challenging goals and to achieve a higher position in the national market.

IREDCO now is providing its local and international clients a broad range of services including project management, consultation, engineering design, technical inspection and IT. These services are provided through four affiliate companies namely IREMCO, IRICO, IRITCO and IRFSD. IREDCO holds some shares in some other engineering service providers which bring about more capability for it to provide broader integrated engineering services.

Time, cost, quality and risk management are four main concerns of IREMCO in providing value services to its clients. IREMCO was established in 2000 by a number of well fame professional engineers. Management consulting, engineering consulting and project management are the three focal services which IREMCO gets involved.

IREMCO has always invested substantially in research and development projects including recognition, localization and development of new methods and mechanism, international experiences and professional rules and regulations.

IREMCO has successfully implemented and utilized an integrated information system and developed it's own project oriented databases and websites that share projects information among remote participants. Furthermore IREMCO, as a member of firms that works within Iranian Engineering Development Company (IREDCO.), takes advantage of cooperation with other associated firms including Iranian Technical Inspection Co (IRICO.), Iranian Information Technology Co (IRITCO.), Iranian Financial Services Development Co (IRFSDCO.), Iranian Industries Development Co (IRIDCO.) and Namavaran Simtech Co.

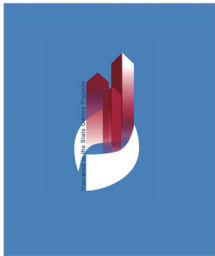

IREMCO employees consists of more than 120, about 80 of which are professional Ph.D., M.Sc. and B.Sc degrees in civil, structural, industrial, mechanical or electrical and computer engineering, mathematics and physics, economics, urban planning, architecture and chemistry.

In addition , IREMCO has standing agreements of cooperation with a number of leading experts institutions in Iran and abroad to ensure that relevant expertise is available at short notice for every aspect of projects under execution.

IREMCO Worked on number of projects undertaken to develop regulations, codes and engineering management procedures, one of which financed by the World Bank.

IREMCO's head quarter is located in Tehran, Iran with branch offices located in Isfahan and Urmia and project offices nationwide.

PRINCIPLES AND VALUES

- Providing quality state-of-art engineering services
- Maintaining the clients' interests and requirement
- Committing to the professional codes of ethics
- Focusing on human resource development
- Maintaining up-to-dated knowledge & technologies
- Practicing team work disciplines

EXPERTISE

- Public buildings and facilities
 - Hospital
 - Hotel
 - Sport
 - Leisure & resort area
- Building complexes
 - Residential
 - Commercial
 - Industrial
- Road, Transportations, bridges, ports & harbor
- Urban development and regeneration
- Structural rehabilitation and retrofits
- Fast track project management

FIELDS OF SERVICES

Management Consulting

- Strategy development & master planning
- Feasibility studies
- Organizational review
- Financial consulting
- Risk analysis and management
- Training programs

Engineering Consulting

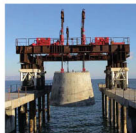

- Physical, regional and urban planning
- Conceptual, basic and detailed engineering design
- Design review & Control
- Site Supervisions

Project Management

- Budgeting & cost control
- Scheduling & time control
- Technical assessment
- Tendering & outsourcing
- Procurement management
- Contract management
- Quality control
- Commissioning & transferring management

Management contracting

- Engineering management
- Project management
- Procurement management
- Construction management
- Financial management

CONSULTING PROJECTS

Project	Client	Year
National road maintenance management review	Ministry of Roads and Transportation	2000
Scoping road maintenance projects	Ministry of Roads and Transportation	2001
Evaluation of road maintenance income	Ministry of Roads and Transportation	2001
Developing general technical specifications for road maintenance	Ministry of Roads and Transportation	2002-2003
Developing road maintenance price list	Ministry of Roads and Transportation	2002-2003
Research on application of insurance in construction industry	Management and Planning Organization	2002-2003
Reviewing the state technical and executive system of civil projects	Management and Planning Organization	2002-2003
Developing a common vision for regeneration of Imam Reza holy shrine surrounding	Iran-Osveh Co.	2002-2003
Study on tourism attractiveness and regeneration projects in Mashhad	Iran-Osveh Co.	2002-2003
Development of an integrated ICT plan for Ministry of Foreign Affairs	Ministry of Foreign Affairs	2002-2003
Holding training courses for general technical specification and price list of road maintenance	Ministry of Roads and Transportation	2003
Drafting Iran's comprehensive engineering system's act	Management and Planning Organization	2004
Structural review and design of urban management and financial system of Tehran Metropolitan	Center of Research and Planning of Tehran	2004
Tehran city development strategy (CDS)	Center of Research and Planning of Tehran	2005
Feasibility study on Jahan Pars' technical and educational complex	Jahan Pars Engineering Co.	2004
Study on the required national road maintenance equipment	Ministry of Roads and Transportation	2005
Assessment of the National Building Codes Implementation and Revision System	Ministry of Housing and Urbanization	2004

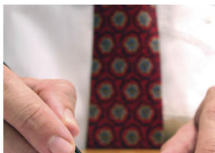

ENGINEERING & CONSTRUCTION PROJECTS

Project	Scope of Work	Client	year
Project management for Construction and extension of seven cultural & leisure complexes	200,000 sq. meter of development nationwide	National Iranian Oil Company (NIOC)	2003 - 2005
Project management & design review of Tabriz-Urmia Highway project	A 130Km highway that connects capitals of two adjacent provinces	IRI Ministry of Roads and Transportation	2002-2007
Project management & design review for Urmia Lake Causeway project	A 1744m bridge with 19 span-the longest one is 100 m- constructed on Urmia Lake.	IRI Ministry of Roads and Transportation	2002-2007
Project management & design review of National plan on Seismic retrofit of the strategic governmental and public buildings, infrastructures and the vital networks	A pilot plan initiated & financed by 20 government agencies for seismic rehabilitation of 630 projects done by 66 consultants.	IRI Management and Planning Organization	2002-2007
Master planning & project management of development of E-governance within ministry of foreign affairs	Master planning, scoping, tendering, contract management, project control, quality control, financial control	IRI Ministry of Foreign Affairs	2002-2005
Project management of Bam pension and disabled spinal cord nursing house	10,000 m ² medical care space	Sepehr Bam Charity Institution	2005-2006
Project management & design review of Petro Pars Co. head office project	20,000 m ² modern head quarter located in Assaloyeh (south pars) Energy Zone	Petro-Pars Co.	2005-2007
Project management & design review of new administrative buildings for IRI Parliament project	80,000 m ² office spaces in 7 blocks	IRI Parliament	2005-2007
Project management of completion of Tehran international tower	A 56-story residential tower -220,000 m ² - located in center of Tehran	A.S.P Co.	2006-2007
Master planning of regeneration of Nezameh restricts in Tehran	Developing a comprehensive urban regeneration project including urban design, financial and administrative system	Renovation Organization of Tehran	2006-2013
Project management & design review of the public schools Seismic retrofit	Managing retrofitting of 1000 schools in 3 provinces done by 30 consultants	IRI ministry of education	2007-2009
Project management for Mashhad international financial center(MIFC)	140,000 m ² of highrise and commercial buildings	Toos Gostar Investment Co.	2007-Cont.
Yas office complex	Design 350,000 m ² of office buildings	Saze Paydar Invest. Co.	2007-Cont.

Iranian Inspection Company (IRICO) is a privately owned technical inspection company, established by a group of well experienced senior technical experts, under Iranian laws and regulations in 2000, by the aim of rendering inspection and consulting services to the national projects.

IRICO has earned a reliable reputation in recent years. In early 2006, it received its authentication from the institute of standard and industrial research of Iran (ISIRI) for rendering third party inspection service on importing & exporting goods.

With a sophisticated global network and qualified inspectors, IRICO present world class technical inspection services on imported and exported goods and equipment according to IFIA rules and regulations as well as relevant international standards through an effective, timely and efficient systems.

IRICO renders complete range of following technical inspection and support services at manufacturing shops, process plants, warehouses, loading and discharge ports in Iran and so many countries .

IRICO'S SERVICES

- Storage and vessel holds suitability inspection
- Supervision of loading and discharge
- Visual inspection, Packing, Marking / labeling
- Pre-shipment Inspection (PSI)
- Conformity assessment based on ISIRI rules and regulations (Voc – Col)
- Quantity Inspections through Draft survey, Ullage survey, weighbridge supervision, counting, and etc ...
- Sampling and sample preparation according to the international standards
- Laboratory and testing services
- Price verification
- Vendor assessment
- Shop inspection, manufacturing inspection
- In service & maintenance inspection
- Pipe line technical inspection
- Non Destructive testing
- Risk based Inspection
- Construction inspection services
- Detailed Technical Survey (DTS) of plants / mills
- Jetty / offshore facilities inspection

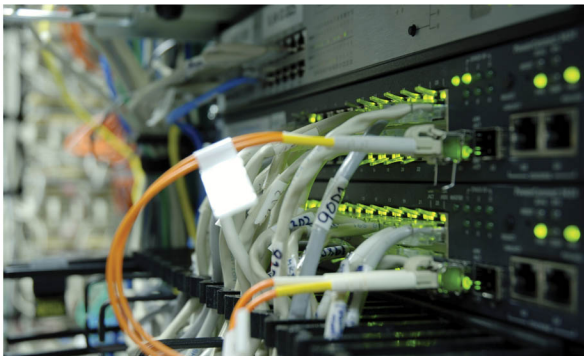

MAJOR PROJECTS / CONTRACTS

project / Contract	scope of work	client	year
Construction of PET1& PTA1 plants for shahid Tongdoyan petrochemical Co. Bandar Mahshahr,Iran	Quality assurance for procurement of materials and equipment, control of NDT, welding & installation process	Namvaran Consulting Engineers Co.	2000-2005
Construction of Shahid Beheshti multipurpose jety Chabahar port Iran	Manufacturing inspection of 7000 Tons spiral weld pipes 56" & 32" in accordance with API 5L standard in IRAN-SPIRAL factory	Ministry of Road & Transportation	2002
Reconstruction of equipments in CTA plant, Shahid Tongdoyan Petrochemical Co.-Bandar Mahshahr, Iran	Maintenance & Repair inspection	Shahid Tongdoyan Petrochemical Co.	2002
Construction of Crystal melamine plant Khorasan Petrochemical Co. Bandar Mahshhad, Iran	Manufacturing inspection of vessels, towers, heat exchangers and storage tanks	Iran Technical Inspectors (ITI) Co.	2003
Construction of Ethylene and PPI/LDPE/HDPE/EO/EG plants Marun petrochemical Co.- Bandar Mahshahr, Iran	Manufacturing& installation inspection of piping networks and process equipment	Marun Petrochemical Co.	2002-2006
Reconstruction of equipment in Alumina plant Jajarm Alumina Co. Saveh & Jajarm, Iran.	Manufacturing& installation inspection of piping networks and process equipment	Namvaran Consulting Engineers Co.	2003
Evaluation of electrical installation of lavan oil production plant Iran Offshore oil Co. (IOOC), Lavan Island, Iran.	In service inspection of electrical equipment installed onshore and offshore	Namvaran Consulting Engineers Co.	2003-2004
In- service inspection of facilities KIMIA Co.-Bandar Mahshahr, Iran	In service inspection of equipments in Chlor Alkali (CA), Vinyl chloride (VC), and MTBE plants	Kimia Bandar Imam Petrochemical Co.	2003-2007
Manufacturing of equipment for Kermanshah petrochemical Industries Co.-Ahwaz,Iran.	Manufacturing inspection of reactors, towers and heavy wall vessels	Namvaran Consulting Engineers Co.	2004-2005
In- service inspection of facilities Kharazmi Bandar Imam co.-Bandar Mahshahr,Iran	In-service inspection of equipment and cranes.	Kharazmi Bandar Imam co.	2004-2005
In- service inspection of facilities Basparan Bandar Imam Co. Bandar Mahshahr, Iran	In-service inspection of equipment and piping in LDPE, HDPE, PP, BD, SR, and PVC plants	BASPARAN BANDAR IMAM Co	2004-2007
Supply of equipment for Phase 1 of South Pars Gas Field expansion, Bandar Assaluyeh, Iran	Quality assurance for procurement of materials and equipment, control of NDT, welding & installation process	BMI Co. Italy	2003
Construction of 2*40 million liters storage tanks for Ray Storage Area Pipeline & Telecom Co.-Tehran,Iran	Construction inspection of mechanical piping and electrical equipment	Paravar Consulting Engineers.	2003-2004
Overhaul of distillation plant of Lavan Oil Refinery Lavan Island , Iran	Maintenance inspection of mechanical equipment	Lavan Oil Refinery Company	2006
Construction of MEG plant for JAM Petrochemical Co. Bandar Assaluyeh , Iran	Quality assurance for procurement of materials and equipment, control of NDT, welding & installation process	Farsa chimi Co.	2004-2007
Overhaul of CCR plant of Bandar Abbas Oil Refinery Co. Bandar Abbas,Iran	Maintenance inspection of mechanical equipment	Bandar Abbas Oil Refinery Co.	2007

project / Contract	scope of work	client	year
Construction of Ammonia & Urea plant for Kermanshah petrochemical industries Co. Kermanshah , Iran	Quality assurance for procurement of materials and equipment, control of NDT,welding & installation process	Kermanshah petrochemical industries Co.	2004 on going
Construction of LDPE plant for Laleh petrochemical Co.Bandar Mahshahr, Iran	Quality assurance for procurement of materials and equipment, control of NDT,welding & installation process	Laleh Petrochemical Co.	2004-2007
In-service inspection of facilities Abniru Bandar Imam Co.Bandar Mahshahr, Iran	In-service inspection of Electrical & mechanical equipments	Abniru Bandar Imam Co.	2005 on going
Manufacturing of hydraulic equipment for Karoun 2&3,Gotvand-e-olia dams.Karaj & Arak,Iran	Manufacturing Inspection of equipment	Farab Co.	2006 on going
Manufacturing of equipment for Khouzestan water and sewage Co. Iran	Manufacturing Inspection of equipment	Khouzestan water and swage Co.	2006 on going
Construction of ethylene plant for Morvarid Petrochemical Co. Bandar Assaloyeh,Iran	Quality assurance for procurement of materials and equipment, control of NDT,welding & installation process	Morvarid Petrochemical Co.	2007 on going
Mansuri oil Field development National Iranian South Oil Co. Ahwaz ,Iran	Third party inspection for purchasing equipment Local & international	Sakhtar Farda Engineering & Construction Co.	2007 on going
Procurement of spare part and material Iranian offshore Oil co.	Third party inspection for purchasing equipment Local & international	Iranian Offshore Oil Co.	2007 on going
Maintenance inspection and corrosion control management SouthPars maintenance Co. Asaluyeh port, Iran	In-services inspection of piping network equipment corrosion management using RBI method	South pars maintenance Co.	2007 on going

IRITCO was established in 2000 as one of the Iran's leading IT companies, specialized in providing Internet services. The main goal of the company was to offer a reliable and high quality Internet access. From 2005, IRITCO has modified its mission to provide network solutions. In addition to traditional aspects of network solutions (such as connectivity, reliability and security), IRITCO also focuses on new subjects like network computing (clustering), network storage and network application integration.

Vision

We envision an enterprise with the dynamics of small teams consist of qualified people working together to provide ICT solutions and services in the Middle East.

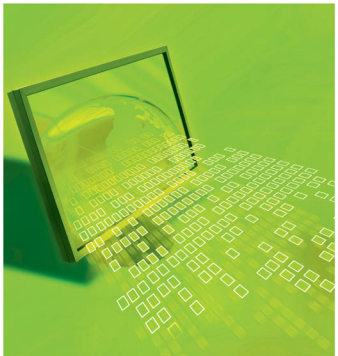

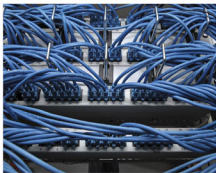

Mission

To be the trusted consultant and solution provider who can bridge the business and ICT communications gap.

Strategic Approach

- Our business is focused on networked ICT solutions and services.
- The customer's challenges and demands is the basic driving force of our development.
- Innovation, flexibility and progress are key factors in maintaining the company's success over time.
- High quality and low operating costs are characteristics of all our products and services.

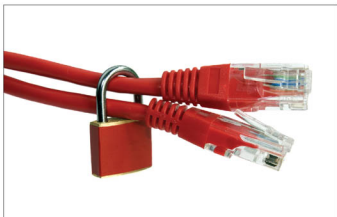

Services	Solutions	Applications Packages
Network Design & Implementation	Designing Network Storage Solutions	ISPPack
Corporate Networks And Last Mile Planning	Designing High Performance Computing Clusters	EMailPack
Internet Connectivity	Designing Network Security Solutions	StoragePack

The Iranian Financial Services Development Company (IRFSD CO) was Founded in 2000 to offer financial, administrative and logistic services by using specialist state-of-the-art technologies.

FINANCIAL SERVICES

1. Accounting
2. Treasury & Cash flow Operation
3. Employees' Wages
4. Legal Book Keeping, Financial & Tax Statements
5. Tax and Social Security Consultation
6. Provision of Consultation on and Launching Finance and Accounting Software
7. Ascertainment and Management of Fixed Properties
8. Evaluation and Pricing of Corporate Stocks

LOGISTICS

1. Equipment of Technical Office (Photocopier, Xerox, Printing) in Workplace
2. Provision of Transportation Service
3. Facility & Infrastructure Management

HUMAN RESOURCE MANAGEMENT

1. Plan and Deployment of Administrative System
2. Organizational Planning
3. Recruitment
4. Process Design

ADMINISTRATIVE SERVICES

1. Organization of Training Plans
2. Administrative Services (Typesetting, Office Work, Archiving, Secretarial Work)
3. Seminar-related Services
4. Provision of Consultation on Labour and Social Security Acts
5. Personnel Attendance Management
6. Obtaining Visa, Residence Permit and Work Permit for Foreigners
7. Provision of Consultation on Publishing Specialist Publications and Intra-Organizational Journals
8. Health, Safety, Environmental Consultation (HSE)

To serve our customers more satisfactorily IREDCO undertakes to contribute to other corporations listed by rendering different engineering services and holding their share and management.

Company	Mission
Iranian Inspection Development Co.	Rendering pre-shipment inspection services world wide.
Iranian Industrial Development Co.	Dealing with oil upstream projects
Namvaran Simulation Technology Co.	Rendering oil reservoir engineering and management services
Rayan Petro Azmoon Co.	Rendering risk-based inspection services
Faraz Urban Development Co.	Real state development & investment
Iranian Building Market Management Co.	Integration , engineering, market and financial services in real state
